The Bulletin.

Norwich, Thursday, Dec. 27, 1917.

THE WEATHER.

The northwestern depression is central off the Washington coast, with a secondary over southeastern Wyomling and a strong anti-cyclone is moving southward from the Canadian north-

It is unseasonably cold in northeastern districts and also, but to a less degree, in the Atlantic coast districts south of Virginia. In the upper Missouri valley a second lowering of the temperature hos set in within the last few days, with snow over Montana, North Dakota and northern Wyoming. The weather will continue cold in eastern districts during the next 24 hours, but there will be a slight increase in temperature Friday, becoming more marked on Saturday.

Snow is probable in the lake region and the Ohio valley Thursday and Friday and rain in Tennessee and the east gulf states.

Demon Five Defeated. Christmas afternoon the fast bas-ketball team of Windham defeated the Demon Five of Taftville. The same was fast, but the Windham team played together better than the local boys and succeeded in scoring the most points. The final score of the game was, Windham 15, Taftville 10. The local team however are not discouraged but expect to get away with the second game, which will be play-ed some time pext week.

Personale. George Dugas of Versailles was a business visitor in Taftville Wednes-

Leo Bisquai was in town for a short visit Wednesday. He motored from Hanover to Taftville.

Dr. Hartwell Thompson was in Taftville for over the Christmas hol-idays. He is now a doctor in the Flartford hospital.

Leo Jacques left town Wednesday to return to Brooklyn, N. Y., where he has been stationed since his en-listment in the Naval Reserve. Up to a late hour Wednesday evening the body of Robert Hewett had not been recovered. His companion, Fred Lathrop, was cared for at Gales Ferry until Wednesday afternoon when he returned to his own home in Uncasville.

The following men returned to New-port Wednesday after having spent the holidays at their homes: Gustave Greenwood, Joseph Benoit, Robert Pilling, Ovilla Bissonnette, Archie Normand and Eugene Desmarais.

> FOR BACKUS HOSPITAL Will Be Received by Institution Through Generosity of Norwich Lady

A member of the Red Cross campaign committee is asking as a final
favor of those who have charge of the
places where the enrollments have
been made—janitors and business men
—if they will put these booths, which
are easily collapsible, into their cases.
This will economize time and labor in
gathering them up. They also ask
that the superintendents of booths in
the outlying districts manage their return to the Bill block on Shetucket
street at their convenience. The object is to reduce campaign expenses
as much as possible. The Backus hospital, through the generosity of a lady in this city who is interested in the hospital and the training school, will receive two modern electric blankets, two electric ern electric blankets, two electric pads, two dressing carriages and an instrument sterilizer. These improved appliances, especially the blankets and pads are being introduced very largely in the more modern and up to date hospitals of the country. It cannot help but be very pleasing to the community that so great an interest is being taken in it by those who can afford to do so.

> COMPENSATION AGREEMENTS. Four Were Filed in the Superior Court . Office on Wednesday.

The following four compensation agreements have been approved by Commissioner J. J. Donohue and filed in the office of the superior court:

Ashland Cotton Co., Jewett City, employer, and Irving M. Thornton, employer, third finger, right hand, sprained and dislocated.

Charles J. Ducy, New London, employer, and Willis R. Dart, employe, badly sprained wrist.

badly sprained wrist.

The Reed-Prentice Co. New London, employer, and Joseph Carolaski, ememployer, and Joseph Carolaski, em-ploye injured left foot.

Aspinook Co., Jewett City, employer, and Joe Kawalsky, employe, loss of fourth and fifth toes.

Soldier Masons to Get Degrees.

An event that is of much interest in Masonic circles is soon to be announced concerning degrees to be given all Master Masons now in the service of their country. Recently at Platts-burg a large number of Masons were given all the degrees above the blue lodge to and including the 22d. This is soon to be offered to all Master Masons in the service at present located in this vicinity, and these degrees will be given all those desiring them without cost to the candidates, during the next consistory, which will be held in the Valley of Norwich, the date to be announced later.

Service and whose authority as secretary of the treasury will enable him to co-ordinate as no other man could the many financial interests which will be involved and which might, unless systematically directed, suffer very embarrassing entanglements.

"The government of the United States is the only great government now engaged in the war which has not already assumed control of this sort. It was thought to be in the spirit of American institutions to attempt to do everything that was necessary through private management, and if a sufficient of administration, it would Soldier Masons to Get Degrees.

GOV'T CONTROL OF RAILROADS PROCLAIMED

(Continued from Page One.) so far as they could while hampered as they were by legal restrictions.

Follows the British System. The plan of control as outlined in the proclamation and statement leaves much unsaid as to details, but the much unsaid as to details, but the general sceme appears to follow closely the British system. In England, however, government freight is carried free and the guaranteed earnings require an enormous amount of money from government funds, while in the United States the government will pay for its freight as in the past and will stand its part of increased freight tariffs if they are found to be necestariffs if they are found to be neces-

ary. Aside from the president's statemen there was no comment in the capital tonight on the government's move. Secretary McAdoo declined to be quoted and members of the railroads' war board said they would have no statement to make until tomorrow. Rate Question Will Not Be Affected

Rate questions, including the pend-ing 15 per cent. advance case before the Interstate Commerce Commission will not be affected immediately President Wilson's proclamation ecting government operation for railroads, and the commission will con-tinue to exercise all its existing func-

An early decision of the eastern and western railroads' application for 15 per cent. higher rates is now expect-

Railroads will continue to apply to the commission for increases or mod-ifications of rates and practices, unless the director-general issues specific orders otherwise, and in that case his au-thority will be supreme. The prin-cipal rate question new under consideration by the commission in addition to the 15 per cent, case are the express companies' application for a 10 cent increase and various ramifications of the western inter-mountain cases.

Doubt About Express Companies. Some doubt was felt tonight as to whether express companies are included in the president's proclamation They are not mentioned specificatlly but the president referred to "every system of transportation and the ap-purtenances thereto." This was gen-erally interpreted as including these companies, whose business is so close ly interlocked with that of the rail-

State railroad and public utilities commissions will be left with full powcommissions will be left with full powers to supervise intrastate rates and transportation rules.

It is presumed that railroads will apply direct to the Interstate Commerce Commission or to the state commissions as in the past without referring questions of rate increase to the director warrel allowed the process. fund committee, as his position on the board of national directors enthe based on the state comping the board of the board of the board of the large number of additional menduration of the sate increase to the large number of additional menduration of the board of the board of the sate increase to the large number of additional menduration of the sate increase to the large number of additional menduration of the sate increase in acreage which it is estimated would require the labor of a large number of additional menduration of the sate comping director general, although the procedure will depend largely on the scheme of connecticut state council of defense setting forth the position of the council as to 'non-essential' programment of additional menduration of the provide of the procedure will depend largely on the scheme of council to be worked out by Mr. McAdoo.

In the fifteen per cent. cases the mated would require the labor of a large number of additional menduration of the state commissions as in the past without referring questions of rate increase to the director general, although the procedure will depend largely on the scheme of council of defense setting forth the position of the council to be worked out by Mr. McAdoo.

In the fifteen per cent. cases the mated would require the labor of a large number of additional men duration.

It is presumed that railroads will apply direct to the Interstate Commissions as in the past without refe

year, and explained that even the increase in earnings resulting from a fifteen per cent. increase probably would not suffice to check the decline. This led officials to suggest that the government railroad administration might look with favor on higher rates, since they would tend to reduce the since they would tend to reduce the amount which government operation will cost the public under the plan of guaranteeing pre-war earnings.

The President's Statement. The president's statement follows:
"I have exercised the powers over
the transportation systems of the country which were granted me by the act of congress of August 1916, because it has become imperatively necessary for me to do so. This is a war of re-sources no less than of men, perhaps even more than of men, and it is neces

tives who have been co-operating with the government in this all-important matter have done the utmost that it was possible for them to do; have done it with patriotic zeal and with great ability; but there were differences that they could neither escape nor neutral-ize. Complete unity of administration in the present circumstances involves upon occasion and at many points a serious dislocation of earnings, and the committee was, of course, without power or authority to rearrange charges or effect proper compensations and adjustments of earnings. Severa roads which were willingly and with admirable public spirit accepting the orders of the committee have already suffered from these circumstances and should not be required to suffer fur-

Increase of Efficiency. "In mere fairness to them the full authority of the government must be substituted. The government itself will thereby gain an immense increase of efficiency in the conduct of the war

of efficiency in the conduct of the war and of the innumerable activities upon which its successful conduct depends. "The public interest must be first served and, in addition, the financial interests of the government and the financial interests of the railways must be brought under a common direction. The financial operations of the railways need not then interfere with the borrowings of the government, and they themselves can be conducted at a greater advantage. Investors in rail-way securities may rest assured that their rights and interests will be as scrupulously looked after by the gov-ernment as they could be by the directors of the several railway systems. Immediately upon the reassembly of congress I shall recommend that these definite guarantees be given: First, of course, that the railway properties will be maintained during the period of federal control in as good repair and as complete engineers as when taken as complete equipment as when taken as complete equipment as when taken over by the government, and, second that the roads shall receive a net operating income equal in each case to the average net income of the three years preceding June 30, 1917, and I am entirely confident that the congress will be disposed in this case, as in others, to see that justice is done and full security assured to the owners and creditors of the great systems which the government must now use under its own direction or else suffer serious embarrassment. Immediate Executive Direction.

"The secretary of war and I are agreed that, the circumstances being taken into consideration, the best results can be obtained under the immediate executive direction of the Hon. William G. McAdoo, whose practical experience peculiarly fits him for the service and whose authority as secretary of the treasury will enable him to co-ordinate as no other man could the many financial interests which will be involved and which might, unless systematically directed, suffer very
